

Second Early Potatoes – Plant March to April & Harvest July to August

SECOND EARLIES		BAKING	BOILING	CHIPPING	MASH	SALAD	ROAST	COMMENTS
BONNIE		✓	✓		✓			Early producer of bold even sized tubers. Excellent exhibitor. Bright skin flesh with red splashes. Bakes well with good taste results.
BRITISH QUEEN		✓	✓				✓	Heritage variety. Dry floury potato. Excellent dry rot resistance. Tubers are oval in shape with white skin.
CARLINGFORD			✓		✓	✓		Carlingford is an excellent salad type potato, a high yielding variety of waxy tubers.
EDZELL BLUE					✓		✓	Excellent for mash. No good as boiler as disintegrates.
ESTIMA		✓	✓		✓			Good baking choice. Heavy cropper of large tubers. Popular choice. Large oval tubers with yellow skin.
GEMSON			✓			✓	✓	Short oval tubers with white skins.
KESTRAL		✓	✓	✓	✓	✓	✓	Consistent in colour and taste. Exhibition potato. Fantastic all-rounder. Kestral has excellent pest and disease resistance.
MARFONA		✓	✓	✓				Marfona is a high yielding variety and has consistent large crops of waxy baking potatoes.
MARIS PIPER		✓	✓	✓	✓	✓	✓	The choice of "The Chip Shops". Grown commercially. Oval tubers and white flesh.
NADINE		✓	✓		✓	✓	✓	Round, clean, white skin. Successful exhibition potato. Excellent resistance to Common scab.
NICOLA			✓		✓	✓		Good boiler. Popular late planter as will harvest at Xmas
OSPREY		✓	✓	✓	✓	✓	✓	General good all-rounder. Light and floury texture.
PICCOLO STAR			✓					Superb as a "boiled" baby new potato." Delicious flavour.
SHETLAND BLACK			✓		✓			Purple skin, white flesh with purple ring. Unusual flavour
VIVALDI		✓	✓		✓	✓		One of finest tasting potatoes. Multi-purpose variety. Low in carbs.
WILJA		✓	✓	✓	✓	✓	✓	Large consistent crop produced in short time period. Yellow fleshed tubers somewhere between waxy and floury.
